Summary

Enthusiastic and dedicated Software development student with a passion for creating efficient and scalable software solutions. Currently pursuing [bachelor of Computer Science and Artificial Intelligence at Zewail City of Science and Technology, I am eager to contribute my strong foundation in programming and problem-solving skills to a dynamic software development team. While my professional experience is limited, my academic projects and personal coding endeavors reflect my commitment to honing my skills in back-end development. Seeking . opportunities to learn, collaborate, and contribute to innovative projects
